-------------------------------------	--------------------	--------------------

Clinical Experience

Jan 2021 – June 2021	<i>Rivendell Child, Adolescent and Family Mental Health Unit</i>
Provisional Psychologist	Sydney South West LHD

- Work within this multidisciplinary tertiary referral service to diagnose and provide high-quality treatment to children and adolescents with a range of psychological difficulties, including social and generalised anxiety, externalising behaviours, and autism spectrum disorders
- Conduct assessment interviews to explore relevant clinical symptomatology and support diagnosis of psychological disorders, including mood and obsessive-compulsive disorders
- Develop and maintain case formulations to support targeted treatment based on the needs of individual patients, with particular focus on the role of family systems
- Provide individual treatment, primarily based on Cognitive Behavioural Therapy, Dialectical Behavioural Therapy, and Acceptance and Commitment Therapy

Jul 2020 – Dec 2020

Clinical Research Unit for Anxiety and Depression

Provisional Psychologist

St Vincent's Hospital (Sydney)

- Support the work of this tertiary referral service by providing high-quality treatment to people experiencing generalised and social anxiety, obsessive-compulsive and related disorders
- Develop and maintain case formulations to support targeted treatment based on the needs of individual patients
- Provide individual treatment, primarily based on Cognitive Behavioural Therapy, and Acceptance and Commitment Therapy

May 2019 – Jul 2020

UNSW Psychology Clinic

Provisional Psychologist

The University of New South Wales

- Conduct assessment interviews to explore relevant clinical symptomology and support diagnosis of psychological disorders
- Deliver psychological therapy to children, families, and adults with a range of presentations, including major depressive, generalised anxiety and social anxiety disorders
- Develop and maintain detailed case formulations to support targeted treatment based on the needs of individual clients
- Primary psychotherapeutic modalities included Cognitive Behavioural Therapy, Dialectical Behavioural Therapy, Acceptance and Commitment Therapy and Schema Therapy
- Administer and report on comprehensive neuropsychological assessments to support differential diagnoses, based on a wide range of psychometric instruments
